The Election of These Men as Los Angeles City Councilmen Marks the End of the Rule of Boss Parrot at the City Hall

HOUSECLEANING COMPLETE

Parrot Councilmen Ousted From City Hall; Eight New Members Elected

The 100,000 voters at yesterday's city election completed the housecleaning at the City Hall they started at the May 3 primaries, and as a result a City Council with eight new members will take office on July 1. The new Council members are:

Arthur Alber, Second District; Charles H. Randall, First District; William M. Hughes, Fourth District; Virgil A. Martin, Fifth District; Howard W. Davis, Seventh District; Lester R. Rice-Wray, Sixth District; Douglas E. Potter, Twelfth District; and Frank L. Shaw, Eighth District.

The members of the present City Council who will retire from office, defeated, either at the May 3 primaries or at yesterday's election, are: Robert M. Allen, Second District; E. J. Hughes, Third District; Boyle Reardon, Fourth District; R. E. (Cupid) Sparks, Fifth District; R. L. (Cupid) Sparks, Sixth District; Otto Sahn, Seventh District; A. J. Barnes, Twelfth District; while Councilman J. E. (Cupid) Sparks, Fifth District, facing defeat, was not a candidate for re-election. At midnight last night Councilman Sahn had a slight lead over Lester R. Rice-Wray. The result was still in doubt.

BOSS CONTROL SHAKEN

The action of the voters at the primaries and at yesterday's election has completely smashed the control of "Boss" Parrot over the city of Los Angeles. The voters at the two elections were "for" men for Parrot and the present municipal administration, while a majority of the new Councilmen were elected on platforms declaring their freedom of action from the Parrot political machine.

The members of the present City Council re-elected at the May 3 primaries were Councilmen Randall,

ENVOY'S DEATH HELD WAR PLOT

(Continued from First Page)

unlocked the activities of terrorist groups of reactionaries who, in their blind hatred of the working class, are using the weapon of political murder.

GOVERNMENT BLAMED

The union government also was considered very satisfactory to Poland. From the conversation then it was inferred that he had promised to use his influence with his government to change the wording of the Riga treaty so that it would give Poland recognition of the right of Poland to Vilna. The text of the present treaty sets forth that Russia is not interested in Vilna, leaving the question to a direct understanding between Lithuania and Poland.

Regarding the statement that Volokoff was residing in some measure for the execution of the Riga treaty, the Russian judge admitted, after investigating the circumstances of this tragedy at Riga, that Volokoff, wrote a book embodying his findings in which he stated that the Polish government was responsible for the death of the envoy. He reproduced a photograph of a document alleged to have been signed by Volokoff, according to which Volokoff delivered gas for the burning of the Czar's family.

MAID IN MURDER DENIED

In consequence of this disclosure, the Polish government objected to receiving Volokoff as a guest in 1924, but after an official denial by the Polish government that he had anything to do with the death of the Russian envoy, the Polish government agreed to accept him. While at first there was ill feeling at Warsaw toward Volokoff, the Soviet envoy soon became more friendly, and in a tactful way showed that his sole desire was to establish the best of relations between Russia and Poland, and the Poles dismissed from their minds the murder story and gave full credence to the envoy's denials.

SHOT BY STUDENT

ON DEPUT PLATFORM

WARSAW (Poland) June 7. (AP)—Councilman Volokoff, the Russian envoy, was shot today by a young Russian student, while Volokoff was walking up and down the platform of the Central Railway station in the company of A. P. Bogdanov, former Soviet chargé d'affaires at London, who was waiting for a train to take him to Moscow.

ANASARIN CAPTURED

Some of the train passengers seized the assassin and handed him over to the police. He is described as a student of the Moscow University, 19 years of age. He is asserted to be a member of the Russian Monarchist party in Poland.

The youth, who was a student in the Vilna High School, said as he surrendered his revolver: "I killed Volokoff." He is reported to have declared that he decided months ago to carry out the assassination.

BOREYKIN EXPRESSED

The Polish Foreign Minister visited the hospital where Mr. Volokoff was lying and later the Polish Minister at Moscow expressed his regret to the Russian Minister.

After the Minister's death, Mr. Boreykin declared he had been informed in Berlin that there was an anti-Soviet club in Warsaw and that there was danger of an attempt on his life. Mr. Volokoff's secretary said the Minister had hesitated whether to go to the station for fear an attempt would be made upon him.

CHICAGO LAND BANKER

AND AIDES INDICTED

TOLEDO (O.) June 7. (AP)—G. U. Y. Huston, president of the Chicago Joint Stock Land Bank, and seven of his associates in the operation of a number of his stock and loan companies were indicted by the United States grand jury here today on charges of using the mails to defraud. The indictments cite seven specific counts against each of eight persons.

BYRD PLANE COMPLETES FINAL TEST

America Takes Air With Load of 14,100 Pounds; Day for Hop Undecided

ROOSEVELT FIELD, NEW YORK, June 7. (AP)—The American, three-motored bomber airplane to be commanded by Commander Richard B. Byrd on a trans-Atlantic voyage, successfully completed a full load test today. The plane got away smoothly and took the air with a weight of 14,100 pounds, as much as she will be called on to carry on the trans-Atlantic voyage.

An announcement has been made of the date Commander Byrd with his pilot, Bert Acosta, and flight engineer George O. Noville, will hop off, but the commander has said that his plane will not leave until after the return to the United States of Col. Charles Lindbergh.

PARROT'S MEN LOSE IN RACE

(Continued from First Page)

other twenty-three Municipal Court judgments were filed at the May 3 primaries.

In the five districts of the city in which there was City Council competition, the names on the ballot were ten in number, the additional being the two nominees for the City Council in each district.

WOMEN ACTIVE

Women voters were in evidence at the polls yesterday afternoon, as many women's clubs and organizations had come out to urge support for Propositions 8 and 4. And the women were also interested in the Board of Education contest, three places being filled at yesterday's election.

YORKOFF DECLARED NOT RESPONSIBLE FOR DEATHS

MOSCOW, June 7. (AP)—The official Soviet news agency today stated in government circles that Peter Volokoff, who at the time of the assassination of the former Czar at Riga, was the Soviet chargé d'affaires in the Russian capital, was in no way responsible for the death of the former Czar.

NORTH VISITED BY RECORD RAIN

Three Bond Issues Lost; Glendale Votes \$1,400,000 for High Schools

ALHAMBRA, June 7. (AP)—Three bond issues for the Alhambra City Commission on the day of returns from thirty-eight of the city's thirty-nine precincts in the municipal election today. Complete returns have been received from thirty of the precincts.

They show a total vote for Campbell of 2,001 as against 1,000 for R. G. Palmer, present president of the commission, and 477 for R. E. Tynia.

R. G. Palmer, the returns show, has been elected City Commissioner from the Fourth District, defeating R. E. Tynia, incumbent. Democrat polled a vote of 1,721 to 1,129 for Harry C. Blaine, 500 for Carroll, 511 for R. E. Smith and 530 for R. W. Fowler.

TEACHERS IN HOMES ELIGIBLE TO RETIRE

ATTORNEY-GENERAL RULES ALL BOARD EMPLOYEES HAVE RIGHTS

SACRAMENTO, June 7. (AP)—California's home teachers, who are certified instructors working full time under the board of education in teaching adults in the home in specified subjects, are eligible for retirement under the teachers' retirement fund if they fulfill all the qualifications of that legislation.

Troops Gather at Belgrade

Capital Takes on Aspect of Army Camp After Albanian Row

Rupture in Balkans Causes Anxiety Among French; Future Puzzling

VIENNA (Associated Press) June 7. (By Reports received by the Koper (Korrespondenz Bureau) here say that, while competent circles in Belgrade do not expect hostilities to result from the present strained situation between Jugoslavia and Albania, the Jugoslav capital has been "converted into an armed camp."

A crown council has been summoned to consider the situation, the reports add. Troops are being drafted for the Hungarian, Italian and Albanian frontiers and martial law will be proclaimed over the entire country.

Attempts by crowds to hold demonstrations in front of the Italian Legation are said to have been frustrated by the police.

It is generally understood that Jugoslavia considers the maintenance of Albania's integrity and independence vital and will not vigorously if Italy ever lands troops. France and Great Britain are believed to have been preparing to raise the Albanian question and notably the Tirana Treaty before the League Assembly in September. Albania's note to the League yesterday was presumably inspired by Italy to force Jugoslavia and will probably force consideration by the League Council which meets on the 15th inst.

Until the entire situation is cleared up peace in the Balkans seems at the mercy of almost any incident.

KELLY TO ROOST ON FLAGPOLE

Health Advocate Plans to Perch Eight Days on Top of Newark Staff

NEWARK (N. J.) June 7. (Exclusive)—Alvin Karpis, who is up in the air to go to St. Simon by plane.

This morning at 10 o'clock he mounted the flagpole of the St. Francis Hotel, Newark, and sat himself on the twenty-inch ball surmounting it. There he intends to remain for at least eight days and eight nights, barring anything short of an earthquake.

The point of the performance, according to Kelly, is not publicity, although he is getting it. He is endeavoring to prove to the erring American public that it "overdoes things," especially eating.

During his long vigil atop the flagpole he will eat nothing and drink only an occasional cup of coffee or soup.

Kelly who, besides being a flagpole climber, is a physical culture writer, asserts he will slide down the St. Francis pole in better physical shape than when he climbed up it.

Thereby he will be cutting the temptations of the world by spending the declining years of his life in a column of ancient Alameda.

It is told of the saint that he was well fed by the faithful but that he went away in the desert air.

This afternoon Kelly's managers scrambled onto the roof and called up to him. Kelly announced he felt fine, but the radio car phones he carried up were bringing him in nothing much but cooking lessons.

His vigil here isn't the first Kelly has staged for the benefit of the public health. Last January he sat for seven days and one hour atop a flagpole in St. Louis. He claims that is a world's record.

New York City health authorities refused him a permit to try his feat there—his native city. Kelly is 34 years of age. He has done many other daredevil stunts.

HILL REAPPOINTED TO SHIPPING BOARD

WASHINGTON, June 7. (AP)—President Coolidge has reappointed Commissioner W. S. Hill of South Dakota to the Shipping Board.

WAR BRIDES

of the

Beautiful girls of war-torn FRANCE who married Yankee boys say that war-made marriages have been one continual romance in Southern California.

Brides prepare to return to homeland with husbands and children as ambassadors of new race with American Legion delegation to Paris.

The Importance of COLOR HARMONY in Man's Scheme of Dress

COLOR harmony, practised effectively by modern woman, is gradually assuming its just place among men. Young and middle aged are learning judicious use of color enriches personality and enlivens the spirit. Older men are discovering elimination of the dull and lifeless is a practical approach to the fountain of youth. "Drabness" is fading forever.

THE degree of pleasure you get from your clothes depends on the skill with which suit, shirt, cravat, and accessories are harmonized. Suggesting color blends both tasteful and attractive is something Desmond's Ensemble style service offers. Ask it to help you.

Wear... Your Color

The beginning of tasteful color selection is learning what colors favor you most. Certain hues favor certain types.

In Our Windows This Week

A detailed, comprehensive color device is on display, portraying the dominant part color plays in man's dress scheme. Illustrated are the proper combinations for four types of men: light haired, dark haired, auburn haired and gray haired. See the colors most favorable to your individuality.

Acts to Put Skids Under Paulino

Continues Feud With Fugazy

Appeals in Boston for Clean Record

June 7.—While Paulino is up in Boston tomorrow to get himself straightened out with the Massachusetts State Athletic Commission, Tex Richard will appear before the New York boxing fathers and set forth new arguments in support of his contention the league wood-chopper should be restrained from fulfilling his contract to box Harry Wills for Promoter Humbert J. Fox.

In the latter part of this month, Paulino has claimed off along that he has no right to box for anyone. He has asked the commission to support the whole case.

In reported Richard tried in vain to put one over on his rival, by attempting to get Al Macchiarini of Paulino's management to sign a contract for a bout with Jimmy Maloney. Fox, however, has advised him that he is not binding. That will be Paulino's line of defense tomorrow when he applies for reinstatement here in July.

DEMPSEY OFFER

NEWARK, N. J. (Exclusive)—James Dempsey, former world heavyweight champion, tonight telegraphed to Paulino's management an offer of \$50,000 to fight him here in July.

Paulino's management has advised him that he is not binding. That will be Paulino's line of defense tomorrow when he applies for reinstatement here in July.

HOW TO KEEP FROM GROWING OLD

Moving fifteen miles before breakfast is only an appetizer for the boys and girls who plan to paddle from Long Beach to Avalon Sunday afternoon. On Tuesday, the camera caught several of the channel scullers hiding through the surf in practice. The entries in this picture are: "Squirrel" De Arce of Catalina, A. Mather, Lottie Moore Schoenfeld and her trainer, Joe Mello, the dapper islander. The husky individual in the lower picture is G. O. Light, who is training at Long Beach, and what a training. The human rowing machine from left to right is Emily Smith, Violet Kendall, Florence Ross and Peggy Vilhous.

White Wins Over Amador in
Olympic Semifinal

BY PAUL LOWRY

Baby Joe Gans won by a technical
knockout over Young Goddard in the
tenth round at the Olympic last
night. With less than a minute of
the last session to go Referee Freddie
Gillmore stepped between the fighters
and raised the negro's hand in token
of victory.

Gans had knocked Goddard into
the latter's corner with a series of
head smashes and when the Mexican,
winded against the ropes, was un-
able to come out fighting after Gil-

G EHRIG, COLLINS CONNECT
TO SINK WHITE SOX, 4-1

League Leaders Increase Margin as
Pale Hose Succumb; Bud Clancy
Stopped by Waite Hoyt

NEW YORK, June 7. (AP)—The New York Yankees in-
creased their lead over the second place White Sox to two full
games today by triumphing over Chicago, 4 to 1, in a contest
replete with home runs.

Ruth hung up No. 18 in the fourth
and following him at bat Gehrig made
his No. 14. Pat Collins slanted a
home run.

Bud Clancy of
the Sox hit a
four-batter homer
for the only run
of his team. In-
cluding five hits
in Boston yester-
day, Clancy had
eight straight
before. Hoyt
stopped him in
the sixth inning
today. Al Thom-
son, Chicago
pitcher, got his
third defeat of
the season. He
has won ten
games.

OARSMEN PREP FOR RACE

Champs of Both Genders Out After Channel's Goat
in Long Beach-to-Avalon Derby

BY EDWARD LAWRENCE
Something should be done about the Catalina Channel's reputation.
George Young cracked a flock of theories when he paddled the twenty-five
miles of chilly water last January; the "kickers" puttered over its surface
last Sunday without missing a beat, and now four more and ten oarsmen
of both genders plan to navigate from Long Beach to Avalon on muscle
grass Sunday afternoon. The grand push-off is scheduled for 12:30.

The whole punch of the race is pre-
sented to be centered at the start.
When those fifty or sixty odd boys
and girls shove
off through the
surf there will be
plenty of action
and not a few
spills. While
there are many
names scattered
among the entries
from all countries
including the Scan-
dinavian, there
are also a few
guys and getting
any sort of a
hook off in the
surf is an art.

Ala. Goodsell,
who claims Aus-
tralia as his home stamping grounds, is
the latest sculler to enter. Goodsell
came from the island continents sev-
eral months ago claiming the world's
fastest sculler.

At that time Pyle approached
Tilden with an offer and Tilden re-

plied that he was not yet ready for
such an offer.

BILL JOHNSTON DENIES
PLAN TO TURN PRO

SAN FRANCISCO, June 7. (AP)—
"Little Bill" Johnston, California sea-
tennis player, emphatically denied
here today that he has any intention
of leaving the ranks of the amateurs
to turn professional as was predicted
in New York today by C. C. Pyle,
backer of professional tennis and
football. When Johnston read the
dispatch he merely laughed and char-
acterized the promoter as "popping
off."

NEW YORK, June 7. (Exclusive)—
Three professional tournaments to
be staged in New York, Chicago and
Los Angeles this fall may see William
T. Tilden and William M. Johnston as
entrants, according to C. C. Pyle. The
western promoter is in New York
making arrangements for professional
football, his cross-the-continent road
race and professional tennis. Con-
versation with Pyle developed that he
has had no recent conversation with
Big Bill or Little Bill regarding turn-
ing professional. Pyle has his ex-
pectations on the negotiations he
conducted with both men last ses-
sion. At that time Pyle approached
Tilden with an offer and Tilden re-

plied that he was not yet ready for
such an offer.

DETROIT TIGERS TURN OVER
BUD TEACHOUT TO HOLLYWOOD
STARS FOR REST OF SEASON

BY BOB RAY

Mr. H. William Lane, the hard rock
owner who is at present amassing the
baseball diggins in the East and now
and then dynamiting the major
league moguls from some
prospective eight-
teen-hour ad-
vertisers for his
Hollywood club,
did some success-
ful dynamiting
yesterday when
he got the De-
troit Tigers to
turn over Bud
Teachout to the
stars for the rest
of the season.

Teachout in
case you don't
know, is the
lucky young southpaw who has been
twirling Occidental College nines
to championships for the last
four years and was recently signed
by Detroit by scout Walter Henry
McCredie. Nearly all of the major
league clubs were after Teachout's
services, but McCredie stepped in
and secured the brilliant left-hander

for Detroit, giving him, it is said, a
\$5000 bonus for signing. All of which
ought to show you how much the De-
troit Tigers value Bud's services.

Inasmuch as the Stars have
only one left-hander on their
batting staff, Teachout's services
will be quite a help to the lucky
Stars. Teachout gets his sheep-
skin at Occidental past Monday
and will probably join the Holly-
wood club on Tuesday at San
Francisco, where the Stars will be
tackling the Minors.

While Teachout is receiving his
first professional ball seasoning with
the Stars he will be given the same
salary that he signed for with the
Detroit club. It is presumed that
Teachout will first join the Detroit
Tigers in their training camp next
spring.

Two of Teachout's Occidental
College team-mates, Solly Mith-
kin and Lee Haezer, will make
their debut in Coast League
rankings next Tuesday also. Mith-
kin, a left-handed first-batter,
who figures to go quite a ways in
the baseball racket, will join the
Stars in their training camp next
spring.

YOURS TRULY

Agnes Armody Ty Cobb

Dear Ty:

There is no doubt in my mind that baseball in the big leagues is getting entirely too analytical. The experts and the players have been hearing down so hard on strategy that they forget what a good old-fashioned ball game can do to a ball game.

You said a real mouthful in your last letter when you called my attention to the fact that we have been thinking so much about "stages of the game" that we have forgotten the game itself. That is to get three men out, and the quicker the better.

There may be good "stages" for this play and that, but the real milk in the can is to get that guy out of the box. When the side is out strategy is dead. You can't get away from that.

It is like teaching a greenhorn how to play poker. After you have explained to him the advantage of raising on two pair and calling after the draw he'll suddenly look up and say: "Yes, but I've got three of those ones."

I also think that we go so much into this matter of how to pitch to this fellow and how to work on the next one that we rob a pitcher of a lot of individuality. It stands to reason that he is out there pitching and ought to know what is going on. If he has any originality and any brain he'll think out a way to get out of the hole. If he doesn't he won't amount to much as a pitcher anyhow. Haven't you found that a pitcher can be taught by telling him too much stuff on the bench?

The big thing in baseball, to my way of thinking, is playing instinct. Haven't you ever noticed that every one of our outstanding stars has some peculiarity all his own. No ball player can be made an absolute amateur. He has ideas of his own and I think he ought to be allowed to develop them.

When I was managing the Cards I used to send my pitchers out there and tell them it was up to them to work their way out. In that way, I am sure they developed a lot of confidence in themselves. They certainly worked out their own way of doing things.

I have a notion that a lot of young ball players would be better if they were simply given a problem and told to work it out in their own way. Every day we are getting too far away from naturalness. In the old days a pitcher knew he was going to pitch nine innings, win or lose. If he came out a winner one time after another he was a good pitcher.

You can't stand baseball playing. Tell all of the great hitters and you'll notice that they have a different style. Nobody taught them that. They developed it themselves to fit their own needs. You did, and so did I.

We are hitting the old western trail now and it seems funny to me to be an amateur. Our pitchers are getting good, though, and there's no doubt about our punch. We'll cause those other contenders a lot of trouble.

Yours truly,

Agnes Armody

STAGE SHOW TOMORROW TO AID FUND FOR MIKE DONLIN

Organized baseball—the whole kingdom of sport and action—has come to the aid of Mike Donlin, suffering with a malignant cancer in the stomach. Mike Donlin, who was the home-ride hero of yesterday.

The smallest embryo cancer as well as the largest of the professionals have contributed their mite to the fund designed to rehabilitate and return Mike Donlin to the game.

Close to \$10,000 has been donated by his personal friends and that sum will be accepted tomorrow night when the receipts of a testimonial benefit performance at the Pantages theatre are distributed.

According to John Barrymore, chairman of the committee in charge of the benefit, contributions have already been received from many professional baseball organizations.

The benefit show at the Pantages theatre tomorrow night, Barrymore explained, is not to be confused with other benefit performances staged in the past which were more or less boring to audiences. An attempt will be made under the direction of Fred Niles, Lew Cody, Charlie Murray and others to present only headliners of the theatre and picture who can do something entertaining.

BOBBY JONES 1 UP IN DASH FOR LAW HONORS

ATLANTA, June 7. (AP)—Robert Ty Jones, Jr., better known as "Bobby" American and British open golf champion, completed the difficult Henry University freshman law course today, just one stroke behind the leader and thereby added another medal to his collection.

Jones led his class during the first semester, but A. Dana Brown of St. Petersburg, Fla., forged ahead in the last term to win first honors. During the second semester "Bobby" came out for a few days to win the southern golf championship. He will go to Oakland June 14 to defend his American open title.

NORWEGIAN HEAVY WHIPS MONTGOMERY

MINNEAPOLIS (Minn.) June 7. (AP)—Ove Von Fernel, heavyweight champion of Norway, outpointed Gully Montgomery, Chicago, here tonight, before 15,000 persons, the largest crowd that ever attended a boxing show in Minneapolis.

HUDKINS ON DUNDEE TRAIL

NEW YORK, June 7. (AP)—Joe Dundee's waterweight crown has landed on his brow only about four days but Ace Hudkins, the Nebraska Wildcat, already is making threatening motions toward it.

Having defeated Al Mello last week and virtually eliminated the southpaw as a contender, Hudkins believes himself entitled to the first battle with the new champion. To that end he has announced through Bill Duffy, one of his representatives, that Dundee will be guaranteed \$50,000 for a title match to be held here.

Hudkins has the opportunity to add force to his challenge by beating Sgt. Sammy Baker in the Catholic Boys Club charity show at the Polo Grounds the 18th inst.

PICK ADAMS OVER HOPPE AT LEGION

Ancient Rivals Clash in Top Spot at Hollywood Friday Night

Johnny Adams has been installed favorite over Dick Hoppe in the Hollywood American Legion Stadium main event Friday night. Adams has just returned from a tour of several states where he did a lot of fighting, winning ten bouts in ten starts.

There never has been a more popular fighter at Hollywood than Adams. He hasn't won all his starts there but the leg has a following that turns out to give him a hand because he is a colorful fighter.

Manager Tom Galtley believes that Adams Adams beat Hoppe he is the logical opponent for Ace Hudkins when Ace returns from New York late this month.

The "Ace" must have opponents and Adams would just about pass any place he started. Hudkins would like to fight Adams.

There is a bitter feeling between Hoppe and Adams. Dick thinks he has Adams' number and he will go after a knockout. Hoppe scored knockouts when he fought the champion a few weeks ago. This proves he has lost none of his power.

Larry Murphy fighting Bobby LaSalle in the semi-main event is a sure shot and so is the Jimmy Pettis-Bud Couper special event. Windy Winsor is going to second Cougar, who is a sure shot and so is the Jimmy Pettis-Bud Couper special event.

Joe Corcoran and Baby Garrison are going to fight. Joe Corcoran is a sure shot and so is the Jimmy Pettis-Bud Couper special event.

Joe Corcoran and Baby Garrison are going to fight. Joe Corcoran is a sure shot and so is the Jimmy Pettis-Bud Couper special event.

OBSERVATIONS

BY THE INNOCENT BYSTANDER BILL MERRY

SOME thoughtful soul once made the remark that at times our best friends are our own worst enemies. It seems to me that this applies to the self-appointed apologists for the University of Southern California who persist in burning forth either vocally or in the public prints in an effort to explain something or other that doesn't require explaining and thereby cause the general public to wonder what it's all about.

As far as we can see the athletic exploits of the University of Southern California during the past half a dozen years require no public apologies or explanations whatsoever. But, on the other hand, speak rather loudly of success.

During the past half a dozen years the Trojans have maintained an average performance in all branches of sport that is among the highest in the country. The Trojans record would be good enough if they stuck to their own territory and it is even better when it is considered that the Trojans have taken on scheduled opponents of the caliber of the University of California, Stanford, and the University of Washington.

The only effect of such efforts is to create in the minds of the public a query as to what it's all about. What has U.S.C. been doing to cause all the other colleges to "gang" up against it? The plain facts are: that the Trojans are getting along very nicely, thank you, and would not about give a hoot if some of the folks so anxious to please used a little better judgment in what they say.

Challenges Party Leaders to
Declare Themselves

Former Secretary Speaks at
Tusculum College

GREENVILLE (Tenn.) June 7. (AP)—A challenge to political leaders of all parties, to make known their stand on prohibition, was sounded here today by William G. McAdoo, unsuccessful candidate for the Democratic presidential nomination in 1924.

Addressing the students of Tusculum College at commencement exercises, the former secretary of the Democratic party declared the prohibition question presents a vital issue that responsible citizenship cannot ignore.

McAdoo, brother of the convicted man, said he was stunned at the news that the prison sentence must begin.

"It is a very bold blow," he said. "My brother is in a very bad shape now. He shows no interest in what is going on about him."

The attack on the Eighteenth Amendment is but a part of a great movement which means all that is best in American life is being destroyed.

"The liquor question itself is a question of political leadership," he said. "The American people cannot ignore it."

CALLES RIDES
AT WIFE'S BIER

Mexico Funeral Train Due
in Capital Today

Crowds in Silent Tribute at
Every Station

Last Rites in Cemetery of
Sorrow Arranged

MEXICO CITY, June 7. (AP)—Traveling across Mexico, with sympathetic crowds assembled in silent tribute at every station, the funeral train for the body of General Calles will arrive in the capital today.

The body of the President's wife probably will be interred Wednesday morning in the Panteon de Dolores, the cemetery of Sorrow, where many of Mexico's most distinguished citizens, together with thousands of her humblest children sleep their last sleep.

President Calles' meeting with his wife's funeral train was at the little station of Santa Fe, where the body of the President's wife was interred.

VILLAGERS "TIN KETTLE" VICAR

Parishioners Aroused by Clergyman's Remarriage Fee
Weeks After First Wife's Death Revive Ancient
Custom of Greeting Him With Charivari

LONDON, June 7. (Exclusive)—The ancient village custom of "tin kettling" has been revived with startling vigor by the villagers of Manuden following the return of Rev. H. B. Grindley, episcopalian vicar, with a bride, who nursed his first wife in her last illness five weeks ago.

The villagers were so scandalized by the hasty marriage of the old churchman that they hastily collected sheets of tin, corrugated iron and all possible noise-making paraphernalia and gathered before the vicarage the first night to welcome the honeymooners with an ear-splitting din.

After a half hour's uproar the "tin kettling" was thrown on the vicarage grounds and the villagers, not of a religious character, marking the interment.

Some quantities of floral offerings are piled in the great hall of the vicarage, where the vicarage will be placed. One of these offerings is said to represent 4,000,000 women members of mothers' clubs, women's clubs and temperance societies, of whom General Calles was honorary president.

GOVERNOR STARTS VACATION
SACRAMENTO, June 7. (AP)—Gov. and Mrs. C. G. Young left this morning for their motor tour of Yosemite Valley, which the Governor is taking to see after his strenuous five months' work on legislative matters.

RULING MAY
CUT INCOME
OF SCHOOLS

Atty. Gen. Webb Renders
Opinion Effecting Revenue
of Twelve Districts

SACRAMENTO, June 7. (AP)—Holding that high schools, except the junior, senior and four-year high schools provided for by law, must maintain four-year classes before drawing the State and county funds maintained appropriations.

Under Webb's ruling those schools which do not have the enrollment for the full four-year course cannot draw from the State and county funds appropriated on the "years maintained" basis for the number of years in which they have students taking work.

SERVING 1000 CITIES AND TOWNS

THINK what that means. The Pickwick Stages System provides essential motor transportation service for more than 1000 important cities and towns including San Francisco, Los Angeles, San Diego, Portland, Phoenix and El Paso.

The essential character of the service, which is under the regulation of the California Railroad Commission, protects every investor in the Pickwick Corporation's 7% Cumulative Preferred Stock. Details furnished on request.

\$500,000

LA CUMBRE ESTATES CORPORATION

First (Closed) Mortgage—6 1/2% Sinking Fund Gold Bonds

Dated June 1, 1937

Coupon bonds in denomination of \$1000 and \$500. Registrable as to principal at the office of the Trustee, Interest payable semi-annually June 1st and Dec. 1st at the Pacific-Southwest Trust & Savings Bank, Los Angeles, California. Redeemable in whole or in part, on any interest date upon thirty-five days' notice at 102 1/2% and accrued interest.

Exempt from Personal Property Tax in California

Interest payable without deduction for Normal Federal Income Tax up to 2%.

PACIFIC-SOUTHWEST TRUST & SAVINGS BANK, Trustee

We summarize the salient features from a letter of Mr. Harold S. Chase, President of the Company, as follows:

- This issue will constitute a closed first mortgage on over 960 acres of residential property located in Santa Barbara, California, a large portion of which is improved with streets, roads, electricity, domestic water supply, etc. These bonds will be further secured by the deposit with the Trustee of sales contracts totaling \$400,000, and shares of La Cumbre Mutual Water Company stock.
- The property, which is located two miles west of the City of Santa Barbara, extending from the main highway to the Pacific Ocean, is of gently rolling character and covered for a large part with live oak trees and shrubbery. principal street parkings have been planted with ornamental palms.
- The physical value of this property together with the improvements thereon, has been conservatively appraised by S. B. Schauer, Esq., of Santa Barbara, California, at \$1,440,000, approximately three times the amount of the issue.
- The stock ownership of the Company and the management is in the hands of an exceptionally strong group of local business men, among whom are Peter Cooper Bryce, Milton Wilson of Santa Barbara, and Roger Layton of San Francisco.
- The trust indenture will provide all usual safeguards for the protection of bondholders including policy of insurance and suitable release clauses.
- An ample supply of water for domestic and irrigating purposes is available. Mr. J. B. Lippincott, Consulting Engineer of Los Angeles, having favorably passed upon the adequacy of the water supply and other engineering features.
- The Trust Indenture will provide for a sinking fund operative during each twelve months' period in the following minimum amounts, the first period to end on June 1, 1939.

8. Parcels of land may be released from the lien of the mortgage only upon payment to the Trustee of specified amounts aggregating over \$650,000. These funds may be solely applied to the retirement of bonds through purchase in the open market or call at the optional price.

9. The Security Title Insurance and Guarantee Company will issue its policy of title insurance guaranteeing the validity of these bonds as a closed first mortgage upon the property.

All legal proceedings had in the issuance of these bonds will be approved by Messrs. Gibson, Dunn & Crutcher, Attorneys at Law, Los Angeles, California. Bonds are offered for delivery when, as, and if issued, and retained by us subject to approval of counsel.

THE INVESTOR

Special Attention Given to Informing Investors by Many Utilities

BY RALPH HENDERSON

NEW YORK, June 7.—Power and light companies are giving more time to the dissemination of facts concerning their particular business among their customers and the public at large than probably any other group in the country. Virtually every large corporation has a special department which devotes its entire time to that work. Without doubt the accomplishments of such departments have in every way justified their existence.

The companies themselves are benefited in many ways, not the least of which is through the improvement of their credit by instilling confidence in the investment public. The fact that people will loan money to an acquaintance much more readily than to a stranger holds true also when the borrower happens to be a large corporation. Likewise, by presenting their problems to the public in an open manner they have found that the treatment they receive at the hands of the public or their representatives is far more favorable in every respect.

Had not such a course been pursued it is doubtful whether the power and light companies would have been able to increase the volume of their services 400 per cent during the last year. It is true that they would not have been able to sell their securities to the \$200,000,000 people who now hold them.

That the investing public has benefited both directly and indirectly is self-evident. Being in possession of the facts concerning the physical and financial condition of the companies, the investor is in a position to make a more intelligent choice of his investments.

As the action of the market indicated, no great apprehension was felt over the loan situation. Several reasons were advanced for the placidity with which the development was received. First, as pointed out before, huge additions have been made to the aggregate value of securities listed since the former peak was reached, thus requiring a proportionately greater amount of capital to finance speculative operations. More important, there has been as yet nothing to indicate that the money market has had to take recourse to the Federal Reserve facilities. On the contrary, holdings of discounted paper are smaller than a year ago and the gold reserve substantially larger.

Strength in Gabriel Securities, which has advanced steadily from the year's low of under \$20 to 45 at the top today, has been in contrast with shares of other security manufacturers which have been lagging. It is attributed by the company's bankers to a broadening of the market for its product. While motor output has slackened, the number of new cars ordered for use as numbers has actually increased. It is contended. Dividend requirements of \$3.50 a share for the full year are expected to be reached in the second quarter alone.

Motors Strong
Despite reports that a number of the motor companies are gradually curtailing production in keeping with seasonal demand, the automobile industry was among the strongest in a group. Demand for General Motors attained large proportions shortly after midday, carrying the leader forward briskly to new high record territory. It was worthy of note, however, that buying turned sharply to the shares of those companies which are believed to be getting their full

Dividends Announced
Directors of the Goodyear Tire and Rubber Company of California have declared the regular quarterly dividend of 1 3/4 per cent on the company's preferred stock, payable July 1, to stockholders of record at the close of business the 30th inst.

The Goodyear Tire and Rubber Company board has also declared the regular quarterly dividend of 1 3/4 per cent, payable to preferred stockholders on July 1, to holders of record the 30th inst.

Commonwealth Home Builders announces the payment of the regular semi-annual dividend on the 15th inst. to stockholders of record the 1st inst.

Directors of the First National Stores, Inc., have declared the regular quarterly dividend of \$1.75 a share on the first preferred stock and 87 1/2 cents a share on the common stock, payable July 1 to stockholders of record the 15th inst. The regular quarterly dividend of 30 cents a share on the unconverted 8 per cent preferred stock of the Cincinnati Company has also been announced, payable on the same date.

SALES GAIN SHARPLY
Figgly Wiggy Corporation Shows Increase of \$4,559,812

Sales of the Figgly Wiggy Corporation for the four months ended April 30, last, aggregated \$59,553,721.13, as compared with \$50,741,107.24 in the corresponding period of last year, an increase of \$8,812,613.70, or approximately 17.5 per cent, according to figures just released by the company in Memphis.

For the month of April, last, sales totaled \$15,977,726.13, a new high record for that particular month and exceeding the corresponding month of last year, an increase of \$2,000,000, the report shows. The April total was more than \$1,000,000 greater than the aggregate of \$14,977,726.13 for the month of March, last.

UTILITY ABSORBED
Group in Kansas Acquired by Pothay Company

Electric properties in Northwestern Kansas supplying the towns of Goodland, Hurlston and adjacent territory with retail electric service and wholesaling service to Kanorado, are to be sold by Union Power Company of Kansas to W. B. Pothay Company of Minneapolis, a contract having been signed some time ago.

Upon the transfer of the property to the new owner it will be taken over by Public Utilities Kansas Corporation, which is being formed and will be a subsidiary of the Pacific Utility Consolidated Corporation, which was recently formed by the Pothay company.

PREFERRED STOCK OF ROOS BROS. OFFERED

Following the common-stock offering of yesterday, an issue of 10,000 shares of Roos Bros. \$5.00 dividend, convertible preferred stock of no-par value will be marketed here today by Schwabacher & Co. and amounting, at \$50 a share and accrued dividends to yield about 6.5 per cent. The stock is preferred as to assets and dividends and is convertible into common stock at the rate of two and three-quarter shares of common stock for each share of preferred stock. Application will be made to list this stock on the San Francisco Stock and Bond Exchange.

NEW YORK BOND PRICES

NEW YORK, June 7. (AP)—Chief interest in bonds today centered outside the quiet listed market in the prompt reorganization of the new \$5,000,000 Hudson Coal Company's bonds, issued as a part of the Delaware and Hudson reorganization program. These bonds, listed on the stock exchange for trading on a "when-issued" basis, sold as high as 98 3/4, against the last price of 97 1/4.

The large increase in broken bonds reported by the stock exchange and Federal Reserve Board yesterday had no visible effect on the bond market. Prices on the whole remained firm, although there was considerable profit-taking, particularly among some of the convertible issues which have been buoyant recently. Data were and Hudson convertible declined more than 3 points and the Erie "D" to last half as much.

Considerable liquidation of Chesapeake Corporation's bonds was in evidence in the convertible market, particularly in the 4 1/2's and Chesapeake and Eastern 2 1/2's, which received good support, the latter touching a new high at 97 1/4. Missouri Pacific's was active around yesterday's closing figure. High-grade investment bonds, on the whole, still felt the competition presented by municipalities, but otherwise were quiet.

Second and Fourth Liberty 4 1/2's were dealt in freely, at particularly unchanged prices. Foreign bonds were noticeable in the United States government list.

Active foreign buying of United Steel Works 6 1/2's with warrants, which established a new peak, foreign bonds were quiet.

Tennessee's new offerings include \$5,000,000 7 1/2's, Exchange, Inc., selling at 98 and 99 1/4, and Tennessee's new offerings with the company's extension plan.

SCALES TO APPEAR TODAY

Defendant in Mixed Finance Deal Released by Bay City Court to Face Charge Here

John Henry Scales, Jr., secretary of the Western Bond and Mortgage Company and of the Great Western Finance Company, was released in San Francisco yesterday under \$500 bail and is expected to appear today before Superior Judge Crawford in Los Angeles to show cause why he should not be adjudged in contempt for his asserted failure to comply with an order of the court in connection with litigation involving a \$200,000 business deal.

Scales and his father, who is president of the aforementioned companies, were cited for contempt because of their asserted failure to turn over the assets of the companies to E. H. Martin, who was appointed receiver in connection with a suit filed by C. Specht of Los Angeles, a stockholder of the Western Bond and Mortgage Company, which has been on trial before Judge Crawford for the last two weeks.

Judge Crawford ordered the sheriff's office to write San Francisco authorities to release Scales under bond. His attorney told the court Scales will arrive in Los Angeles today from San Francisco. The defendant firm is the Budget Finance Company, Scales and his son and Miss E. C. Duesenberg. The suit of Specht is for the return of the assets of the Western Bond and Mortgage Company, which are said to have been exchanged for stock in the Budget Finance Company. Scales is charged by the plaintiff that the assets of the latter company consist in the main of mortgages on worthless land.

The history of the suit is a muddle of finance and business transactions, according to the complaint. It involves a number of finance and insurance companies and the transfer of stocks and assets. The law firm of Knapp, Partridge & Knapp represents Specht. Floyd B. Calvert, former president of the Great Western Finance Company, who is named a defendant in the cross-complaint, is represented by H. H. Harris. State Senator Thomas C. West of Alameda and J. E. Bailey represent the scales and the Budget Finance Company, and Clyde Shoemaker is attorney for Robert Morris and Robert Mayne & Co., also named as defendants.

STORM DRAIN ASKED

The Public Works Committee was asked yesterday by the City Engineer, in connection with the improvement of Avenue 50 between York Boulevard and Pasadena Avenue, that he be instructed to include in the paving proceedings the installation of the section of a storm drain between San Rafael Drive and the outlet of the storm drain south of Hollywood street.

VACATION-TOUR CONTEST ATTRACTS WOMEN READERS

Early indications are that women are going to turn a large percentage of the prizes competing for the \$175 cash prize offered by The Times in the vacation-tour contest, the awards going to the most attractive and best presented plans for a summer vacation trip by automobile. Nearly one-half the requests for maps and information made at The Times Information and Resort Bureau have been from the feminine members of the family.

Three prizes, \$100, \$50 and \$25, will be given for the best vacation suggestions and the major prize will be augmented by many valuable merchandise awards to those receiving honorable mention in the contest. The contest closes at midnight the 15th inst.

Read the rules and with a prize that will pay for your vacation. Here are the Vacation Tour Contest Rules:

- 1.—No plan shall exceed 500 words in length.
- 2.—Plans must be submitted by mail and postmarked not later than midnight, June 15.
- 3.—Attractiveness and practicability of the plan itself, accuracy of facts and manner of presentation will be considered by the judges.
- 4.—Plans shall provide for a vacation trip not to exceed one week from Los Angeles to Los Angeles and of not less than 500 miles by automobile.
- 5.—Plans should be typewritten on one side of the paper only and addressed to the Vacation Tour Contest Committee, The Times, Los Angeles, Cal.
- 6.—No contestant may enter more than one plan. All manuscripts must be the original works of the contestant. No manuscript will be returned.
- 7.—The Times reserves the right to publish, with credit to the author, any plan submitted, whether it wins a prize or not.
- 8.—The Times reserves the right to add to or modify these rules as the best interest of the contest and the contestants may appear.
- 9.—In the event of a tie the full amount of the prize tied for shall be awarded to each contestant so tying.
- 10.—Anybody is eligible to compete except Times employees, regular contributors to The Times, the judges and members of the families of any of these excepted persons.
- 11.—The decision of the judges shall be final.
- 12.—Any person entering this contest by so doing agrees to the foregoing rules.

SULLIVAN SEEKS SEPARATE TRIAL

Raymond Death Case Doctor to Make Motion Today

Stands Indicted Jointly With Dorothy Mackays

Bitter Fight Expected as State Opposes Plan

Dr. W. J. Sullivan, Hollywood physician, will insist upon being tried alone when he appears before Superior Judge Burnell on the 10th inst. for his trial on an indictment jointly accusing him and Dorothy Mackays, stage actress with felony charges growing out of the death of her husband, Ray Raymond, musical comedy man, last April. It was learned yesterday.

The motion for a separate trial which is to be filed in behalf of the physician by his attorney, Thomas S. White, is expected to precipitate a bitter controversy inasmuch as Dep. Dist. Atty. Murray and Kemp, who will prosecute, announced they will oppose any efforts in this direction. The matter, however, is discretionary with Judge Burnell.

PREJUDICE FEARED—Dr. Sullivan and Miss Mackays are charged with being accessories after the fact and with compounding a felony because of their asserted attempts to conceal the true facts of Raymond's death in connection with which Paul Kelly, young film player, was convicted recently by a jury for manslaughter and sentenced to serve from one to ten years at San Quentin. He is being held at County Jail pending his appeal to the Appellate Court.

It will be contended by Mr. White that the rights of his client will be prejudiced if Dr. Sullivan has to go to trial with Miss Mackays on the two charges in view of the fact, he asserted, that Dr. Sullivan had nothing to do with the case until two days prior to the death of Raymond.

MOION BLATED TODAY—Evidence which must necessarily be presented against the other defendant in the case will be prejudicial to Dr. Sullivan and for that reason, and others too, he will ask the court for a separate trial.

White said yesterday, "I will file the motion on the day the case is called for trial."

Dr. Sullivan's name did not become linked with the case until two days before the death of Raymond when he was called in to try to save his life. He had no dealings with Kelly and very few with Miss Mackays and for that reason it is our belief he is entitled to be tried alone.

According to Clark Kende of Judge Burnell's court the case in all probability will get underway on a date fixed and is expected to prove even more sensational than Kelly's trial. Evidence was produced at Kelly's trial that Raymond died of injuries he received in a fist fight with the convicted man over the affections of Miss Mackays. He admitted his love for her but put up the defense Raymond died from natural causes.

The charges are a high-grade misdemeanor and punishable by a fine as high as \$5000 or a year in jail. The youth, a lumber grader, said he is unable to plead guilty and seek protection.

In the Market Place

IN certain parts of Europe some centuries ago, the farm laborer was wont to stand in the town market place holding a straw in his mouth as a sign that he was looking for employment.

Today the uninvested dollar places itself in the open market. As to an individual, it must be offered an occupation free from personal hazard, with steady employment and attractive wages.

In providing telephone facilities for nation-wide service, the Bell System has employed millions of such dollars. The savings of more than half a million American Telephone users, invested in Bell System Securities, have built the system that serves them. Theirs is an investment in service, and they themselves have served by investing.

What Women are Doing

By Myra Nye

What high school girls can give in their program, what they can do in their work, what the teachers of the high schools can show in the line of their work, is the theme of the club closing and school commencement, the latter meaning closings, too. Especially in this time of a club of women who are interested in all lines of profession and industry. And yesterday at the Sororities Club meeting in the ballroom of the department of vocational education in the Los Angeles city schools, proved to be one of the most delightful of the entire club season.

The "High School Girls' Club" opened the program with a group of songs and members of the group, dressed in middie and pleated skirts, wearing black and white, and carrying their own handbags, sang songs of their own composition. The club of their director, Mary Howell, and at the same time captivated with their youth and unadorned charm, the audience of students and teachers, who were seated in the ballroom, were captivated by the club's singing.

The club's program was a very successful one, and the club's members, who were seated in the ballroom, were captivated by the club's singing.

HOUSEHOLD SUGGESTIONS

To Remove Wallpaper
Heat a gallon of water and add to it a heaping tablespoonful of salt. Apply this to the wall with a brush, keeping the water hot all the time. After a few applications the paper will pull off easily.

Too Quickly
If the cake, bread or beans in the oven are browning too quickly and getting too brown, set a pan of cold water in the bottom of the oven and it will cool it for you.

Bread for the Kid
The next time you bake bread half a pound of raisins will make a loaf of bread that will make the youngsters.

Home Hints
Worn woolen stockings make easily torn. To prevent this, wash them in warm water with a little salt and a little vinegar. This will make them last longer.

Never pour hot grease down a drain pipe. As soon as it strikes the cold pipe it will congeal and stop it up.

City's Summer Camps Become More Popular

The three summer vacation camps which the city of Los Angeles has established for her permanent residents are becoming more popular each year and early reservations are advisable, according to a recent report received from the scouting department of the National Association of Scouts of America. The camps are located in the San Bernardino National Forest and one in the High Sierra, are situated in the Department of Recreation and the city of Los Angeles through the courtesy of the United States Forest Service and are located in some of the most beautiful scenery in the state.

Son to Occupy Judicial Place Held by Father

For the first time on record in California a son will fill a place in the State Supreme Court once occupied by his father, when Presiding Justice Works of the Second District Court of Appeal substitutes for Associate Justice Richards of the Supreme Court. Associate Justice Richards is an uncle to Justice Works, who is the son of a justice of the peace in the city of Los Angeles. Justice Works is now in the city of Los Angeles, where he is engaged in the practice of law.

TO DO.

VOYING LIST SHOWS POPULATION GAIN
LANCASTER, June 7.—The new voting list for the city of Lancaster, Pa., today showed a population gain of 1,000 over the list of 1925. The list was compiled by the city clerk, and showed a total population of 10,000. The gain was due to an increase in the number of families in the city, and to an increase in the number of people living in the city.

United Jewish Appeal Campaign Opens in Los Angeles Next Week

THE annual United Jewish Appeal campaign, which has as its objective a fund of \$225,000 to be used for relief and rehabilitation purposes in Europe and Palestine and in aiding fourteen Jewish welfare organizations, opens here Monday. Henry W. Lewis, chairman of the local drive, will have as his lieutenants twenty of the leading Jewish citizens of the community. The exclusive photographs on this page depict activities in the different districts in which colonization and rehabilitation are taking place through funds previously raised by the United Jewish Appeal.

OUR HISTORY IN PICTURES 737 The Story of Alaska—Part Three by J. CARROLL MANSFIELD

ON OCTOBER 11, 1867, AFTER CONGRESS HAD RATIFIED THE PURCHASE TREATY MADE BY SECRETARY OF STATE SEWARD, THE GREAT PROVINCE OF RUSSIAN AMERICA WAS HANDLED OVER TO THE UNITED STATES. IT WAS RE-

NAMED ALASKA ("GREAT LAND"). THE ACQUISITION OF THIS VAST COUNTRY ADDED 577,390 SQUARE MILES TO THE TERRITORY OF THE UNITED STATES, AND GAVE US OUR FIRST FOREIGN POSSESSION.

AT THE TIME OF THE PURCHASE THERE WERE SOME TEN THOUSAND WHITE MEN LIVING IN ALASKA, MOST OF THEM ENGAGED IN THE FUR TRADE, BESIDES A GREAT MANY INDIANS AND ESKIMOS.

THE PRINCIPLE GOVERNMENT OF THE NATIVES WERE HUNTING, FISHING, AND RAISING OF HERDS OF DOMESTICATED ANIMALS.

DRY ACT CALLED
NEED OF PERIOD

Dr. Roman Speaks Before Woman's Committee

Says Each Generation Must Meet Own Problems

Lecture Course at U.S.C. Ends Next Tuesday

Prohibition is the response to the need for new laws to meet new situations, Dr. Frederick W. Roman, member of the summer staff of the University of Southern California, told the Woman's Law Enforcement Committee at a meeting at that institution yesterday.

"With every advance in science and with the progress of civilization, new laws are necessary," Dr. Roman said. "In order that the liberty of all the people may be preserved, it is necessary to restrict it for some of them."

"We can't make laws for all times because conditions are always changing. We can only make them for the hour, to suit present needs and according to the best knowledge and science available. Then we must leave the next generation free to change them for themselves."

Dr. Roman used the child-labor law in England as an example of the law which new laws sometimes become effective, pointing out that it was twenty-five years before this law was properly enforced.

One hundred years ago school children in New England memorized the names of various kinds of liquor in their regular textbooks, and the March Congress was made in part a rule to keep their ministers from also being saloon keepers, Dr. Roman said, as an illustration of the changing viewpoint toward the liquor question.

Discussion was led by Mrs. William B. Roman, the course of lectures, which has been conducted for several years, is placed at \$7000, after which a review of the course by the Board of the University of Southern California, and a discussion of the subject, "Courage in Public Affairs."

HE GAINED NAME AS
NEMESIS OF CROOKS

Fred C. Boden

FOE OF DOPE
CRIMINALS
DIES IN CITY

Fred C. Boden Passes Away After Illness of Year; Well Known as Officer

Fred C. Boden, peace officer, the fear of narcotic-dealing criminals, died at his South Union avenue home early yesterday morning following an illness of more than a year. The body is at the Cunningham & O'Connor undertaking establishment. Funeral plans will be announced later.

Mr. Boden, who was 46 years of age, for many years was chief inspector for the State Board of Pharmacy. While holding this office Boden and his fellow-inspectors operated throughout the entire state and almost stopped for a time the sale of narcotics.

While leading a raid against the home of "Little Phil" Alguin, Boden and other officers became involved in a battle with narcotic dealers during which Police Detective Tom Fitzgerald was shot and killed. Following the killing Boden and the other officers arrested a score of drug tongs in the home, but Alguin, who killed Fitzgerald, escaped. He was captured a number of years later in Mexico.

During the war Mr. Boden left the State service and for a number of years was employed by the United States Department of Justice, and later engaged in special work for the Los Angeles Police Department. At the time of his death he was acting as a private detective.

Mr. Boden was born April 19, 1871, at San Francisco, and more than thirty years ago was a member of the San Francisco Police Department. He leaves one daughter, Mrs. Penelope Boden, and two sons, John A. and George A. Boden, all of San Francisco.

Mr. Boden was a member of the Los Angeles Police Association, and was a past president of the organization.

LOCAL PAIR
JAILED FOR
KIDNAPING

Private Detectives Held in Texas After Seizure of Man Wanted Here

Fred Simmons, and Milton T. Schaefer, private detectives of this city, are under arrest at Brownwood, Tex., on a charge of kidnaping, according to dispatches received here yesterday.

The private operatives found themselves in the Brownwood jail after they had arrested G. C. Compton, who was wanted here on a charge of having defrauded a woman out of \$5000 and jumping his bond of \$25,000 after his arrest.

Compton already had been taken into custody by Dallas (Tex.) authorities on a fugitive warrant from Los Angeles and was at liberty under \$5000 bond when the Los Angeles detectives arrived.

The operatives seized Compton, hustled him into a taxi and sped to Port Worth where they boarded a train for California, but were intercepted with their prisoner and arrested on the kidnapping charge at the request of Sheriff Scales of Dallas county, Tex.

Compton was taken to the Dallas county jail, where he was held until the arrival of the Los Angeles detectives.

Sand and Sea Fashions
for the "Youngest Set"

DYAS' Sports Shops have carefully provided for these very young, with suits and accessories to make play hours in the sand most happy ones!

IF IT wasn't for the overly large beach hat on the youngster seated, you would notice the high neck on the Tenny suit, \$5. Hat is 50c.

A PAIR of red rubber "fishies" at \$5.95 goes into the water with this lad (sketch right). Other water frocks in animal shapes are \$1.95 to \$3.95.

Every Foreman & Clark Suit must hurdle these 5 laboratory tests

Would you buy a fine watch that wasn't "tested in 3 positions" for accuracy? Would any builder of motor cars use steel not measured for strength? Why buy clothes, at any price, whose actual intrinsic quality is not similarly checked and MEASURED in advance?

The U. S. Gov't devised them. We installed them, in

the most remarkable factory laboratories in the clothing industry!

They call it the longest stride forward in 20 years of clothing production

We call it

merely giving the man who buys clothes the same present-day precision standard he takes for granted—and gets—when he buys almost anything else... a watch, a car, even a pair of shoes

Why do so many \$80, \$90 and \$100 suits "wear out" in a fraction of their normal life? Why do others quickly "lose their shape"? Why are clothes made such a "mystery"? Why are clothing men so vague? Why no facts?

Foreman & Clark command the scientific common sense of the U. S. Bureau of Standards to the clothing industry at large. It is an answer to the questions more and more men these days are flatly asking.

THE best guess of the shrewdest woolen expert in the industry isn't worth its breath if half an hour of "accelerated friction" (see Test No. 4) proves it wrong.

The oaths of seven woolen mills as to the color fastness of a cheviot are idle gossip if seven hours of electric "Concentrated Sunlight" (see test No. 3) betray the slightest tendency to fade.

And so on down the line—the longest line of searching tests ever put between a suit of clothes and the man who is going to buy it!

But tests with a different slant! Not merely "I-told-you-so" tests to prove the quality is there after the garment is built, but constructive tests which

help to put it there when it is so geared to our factory production that they play a vital part in production!

We test woollens for wear and weight and strength and elasticity. We test linings and trimmings for tears and thread. We even test seams up to three times the strain you can possibly give them!

Here is a laboratory research not the realm of textile engineers but of busy clothing workers shrouded in technical and aproned in practical facts—proving ground of clothing suits and topcoats it stands behind!

THURSDAY MORNING, JUNE 8
LONG-SOUGHT PAIR HELD

D'Autremonts Arrested

and Roy, Wanted for Oregon Hold-up in 1923, Found in Ohio

of Three Brothers at Work in Steel Mill When Police Get Tip

STANTONVILLE (O.) June 8. (AP)—Ray and Roy D'Autremont, wanted for the killing of a postal agent and three trainmen in a passenger train hold-up at Siskiyou, Or., years ago, were arrested here by Federal agents and local police.

At the time of the arrest of the three brothers, the third member of the trio who was captured in the Philippines was James D'Autremont, who had been in hiding in that country.

WORKING IN STEEL MILL. The men were located a short time after they had been under surveillance by Federal agents. They were working in a steel mill under the name of James and Clarence Goodwill. The afternoon a Department of Justice operative with Chief of Police Cunningham and two city detectives created Roy as he came to work in the mill. He was taken to the City Jail for further investigation.

CAUGHT BY KID. The officers returned to a rooming house in the foreign section where the brothers had been living. One of the detectives knocked at the door and when Ray appeared told him that his brother had been in the mill. Ray rushed out and was waiting to take him to the waiting officers. Two men were found in the house belonging to the brothers.

United States Commissioner Burroughs arrived here tonight. The men will be held until tomorrow, officers said, when they will be assigned before Commissioner Burroughs or returned to Cincinnati.

THEY were brothers for whom a search has been conducted since their identity when connected with the Siskiyou train hold-up, where they were held for several days. The brothers said they had been working in the Wheeling Steel Corporation since late January. D'Autremont had been married and was living with his wife and a child about 1 year old. The wife is an Ohio native and was unknown to the officers' identity. Police officers had attempted to locate their whereabouts by trying to find her.

REPORTED TO ADMITTED IDENTITY. STANTONVILLE (O.) June 8. (AP)—United States Attorney W. B. Barlow announced on Page 2, Column 3.

THE DAY'S NEWS

KEY. Cloudy. Wind at 5 p.m. from the west, 7 miles. Temperature, 68 deg.; lowest, 55 deg. Forecast: For Los Angeles and vicinity, Partly Cloudy. For complete details, see last page of this paper.
